

Release Notes

May 2017

CoreLogic Database Update

Summary of Changes:

- 2 RFIs closed for the month of April
- No new item operations added for the May update

Database Updates:

- Updated Drip Edge descriptions from White Finish to Pre-finish Color
- Updated Deck Railing descriptions from Treated Pine to Pressure Treated and Mahogany to Tropical Hardwood
- Reviewed waste factors for starter shingles and ridge shingles.

RFI's closed during April 2017

ID	Title	Content	Comments
5511	Shingles, 3-Tab, Fiberglass	Can you confirm with Corelogic that they still believe ridge shingles should be an additional line item in an estimate? Also, please review the waste percentage for starter row and ridge shingles?	CoreLogic believes that ridge shingles should still be a separate line item and not included in shingle pricing. This is due to the accuracy needed on complex roofs. The waste factor for the ridge shingle options will be reviewed and updated for the May database release. Even though the Ridge Cap and Laminated Ridge are pre-cut we will adjust the waste to account for the leftovers from the pre-cut packaging.
5513	Drip Edge	Customer is requesting that the word white be removed from the description for drip edge and changed to pre-finish colors.	CoreLogic agrees and will update the white finish drip edge items to state pre-finished colors. This change will be in the May 2017 database update.
