Release Notes   September 2021

CoreLogic Database Update

Summary of Changes:

- 506 new Item Operations added for the September Database Update

- 6 RFI's closed for the month of August

Database Updates:

- Standard monthly material price update

- Material price update for all lumber and wood sheathing items to keep pace with extreme price changes in the lumber market.

- New Items Include: Commercial Door Panic Bars, Utility Poles, Pre-Engineered Metal Buildings, Hoop Buildings, Rafters and Truss Systems per SF, and more.

Item Image Updates:

- 6 new images were added for the September database update.

- 1227 total images have been completed to date, covering 2193 specific line items. Future monthly updates will continue to have new images added as they are completed, as we continue to work toward the ultimate goal of building a comprehensive library of brand-new images for the majority of items in the database.

Assembly Updates:

(Fixes and Updates - Assemblies)

- Decks
  - Fixed an error with decks that was causing finish only option to not function properly. This is working as expected now.

Desk Adjuster Updates:

(Fixes and Updates – Desk Adjuster)

- None

RFI's closed during August 2021

ID	Title	Content	Comments
IS-39797	Awning Windows, Aluminum	Client request for clarification on the awning windows in the WDW-Aluminum category. These items do not indicate of they are single or double pane.	CoreLogic will update the Awning Window items to confirm they are in fact double pane. This update should be complete for the October or November database update.

IS-39905	Height Allowance for Painting	Client request for clarification on the items *Height Allowance, Walls, Over 10 Feet* and *Height Allowance, Ceiling, Over 10 Feet.* Are they intended to only be applied to the square footage over 10', or the entire wall/ceiling?	The Line items *Height Allowance, Walls, Over 10 Feet* and *Height Allowance, Ceiling, Over 10 Feet* are both intended to be applied only to the area over 10 FT. The user should manually enter the calculation. In addition, *Height Allowance, Walls, Over 10 Feet* can be applied through the wall editor with the "Set Area to Attach" Function.
IS-41028	Cleaning Labor in Rochester NY	Client request to review cleaning labor rates in Rochester NY. Client feels the labor rate is too low.	CoreLogic will soon be publishing a labor cost update, which had originally scheduled for the August or September Database Update and now is being targeted for October. After the labor update is complete, a detailed review of the attached estimates can be completed, and we can address any discrepancies noted during the review.
IS-41852	Seal Grout, Wall Tile	Client request for clarification on the item *Seal Grout, Wall Tile.* Looking to confirm if this is sealing for the grout only, or the entire surface of the wall.	The item *Seal Grout, Wall Tile* is built as a measurement of the SF of surface area to be sealed. The sealer however would only be applied to the grout lines.
IS-41718	Vinyl Siding Costs in Murrysville PA	Client request to review pricing on vinyl siding products in Murrysville, PA. They are concerned regarding recent pricing increases in plastic resins.	Material pricing in the Murrysville PA region should update with the September database release. We are actively monitoring pricing trends related to plastic resins. Please note, our siding items do include starter strip, but do not include F/J channel, corners or house wrap. Any additional

IS-41094	Clarification on Solar Panels.	Client request to review depreciation on the items *Solar Panel Air Type* and *Solar Panel Liquid Type.* They are currently set up with a 7-year useful life. In addition, the item *Solar Panel Only, Photovoltaic, per SF* is currently in the HVC category, shouldn't it be in the Electrical category?	CoreLogic will adjust the useful life on the Liquid and Air Solar Panel Items to 18 years. The change should be complete for the September Database release. Currently all Solar Panel items are in the HVC - Solar Panel category. As the category is expected to expand with additional offerings in the near future, we will consider separating into additional categories at that time.

(header text, upper right:) pricing adjustment to vinyl siding items should be available in the October or November database update as necessary.

New items added for the August 2021 Database Update
