

Release Notes

December 2021

CoreLogic Database Update

Summary of Changes:

- 307 new Item Operations added for the December Database Update
- 5 RFI's closed for the month of November

Database Updates:

- Standard monthly material price update
- New Items Include: Quonset buildings and accessories, picket fence gates, composite wood shutters, steel I-beams and more.

Item Image Updates:

- 5 new images were added for the December database update.
- 1232 total images have been completed to date, covering 2060 specific line items. Future
 monthly updates will continue to have new images added as they are completed, as we

continue to work toward the ultimate goal of building a comprehensive library of brand new images for the majority of items in the database.

Assembly Updates:

(Fixes and Updates - Assemblies)

- Asphalt Roofing
 - Removed the term (wind) from the repair option for unsealed shingles. The definition of wind damage changes from carrier to carrier and labeling unsealed shingles as wind was requested to be removed to avoid coverage confusion.

Desk Adjuster Updates:

(Fixes and Updates – Desk Adjuster)

None

RFI's closed during November 2021

| ID | Title | Content | Comments |
|----------|---|--|--|
| IS-48074 | Standing Seam Metal Roofing Vs Seamless/Snap Lock Metal Roofing. | Client is looking for clarity as to the difference between the items Metal Roof Panel, Standing Seam and Metal Roof Panel, Seamless/Snap-Lock. | Standing Seam Metal Roof Panels are fastened together by using a seamer tool to crimp the panels together. Seamless/Snap Lock panels have a panel locking system |

designed into the panel and do not require the use of a seaming tool.

| IS-48064 | Remove & Reset of Solar Panels | Client inquiry regarding the Remove & Reset action for the item <i>Solar Panel Liquid Type</i> . They are wondering if there should be additional charges such as 2 trip charges, plumbing charge, electrical charge, storage, etc. | The Remove & Reset Actions on the Solar Panels listed in the ticket do not assume there will be 2 necessary trips etc., additional plumbing, electrical, or storage fees. Those items can be considered on a case by case basis. The labor for the remove half of the equation considers the additional care and time needed to remove the item without damaging it or the surrounding area. |
|----------|--|---|--|
| IS-48146 | General Demolition, Gut, per SF | Client asked if the line item <i>General Demolition</i> , <i>Gut</i> , <i>per SF</i> includes removal of flooring. | The item <i>General Demolition, Gut,</i> per SF includes removal of finish flooring, and the subfloor as needed. |
| IS-48540 | Insurance Burden for Roofing labor | Client inquiry regarding the amount of the insurance burden being used to calculate the Roofing Labor Rate. | The "Base Wage" listed in the item properties box in Symbility is really a "billing rate" that includes the local base rate and factors in insurance, COLA, business and jobsite overhead, and profit. Yes, the insurance burden is accounted for but at this time, we are unable to share the specific percentage. |
| IS-48312 | OSHA regulations on Roofing items | Client asked if the line items in the roofing category are considering OSHA requirements for working in elevated areas. | CoreLogic is working on a plan to update current items with language to clarify that compliance with safety standards is included with the line items. Changes should be complete for late Q1 2022. |

New items added for the December 2021 Database Update
