

Release Notes

CoreLogic Database Update April 2023

Summary of Changes

137 new Item Operations added for the April Database Update

Database Updates

- Standard monthly material price update
- New Items Include: Ceiling Light Diffusing Panels, Rim Joists, Toilet Partitions and more.
- To better service our customers and provide the most current data possible, the database production release has been accelerated forward by a week, starting in April 2023 and moving forward. The new release will occur on the first Monday of the month; it was previously occurring on the second Monday of the month.
- To better improve customer experience with the pricing database, the trade/crew list visible in the claim tools (mobile claims, claims connect) has been reduced to make it easier for users to find and pick the right trade, if applicable.

Claims Construction Bulletin

 To keep our clients informed of current market trends, CoreLogic® has curated a monthly bulletin of trending cost variations for various loss types by regions within the U.S.

Item Image Updates

No new images were added for the April database update.

 1704 total images are currently present in the database, covering 2878 specific line items.

Assembly Updates

(Fixes and Updates - Assemblies)

Two new assemblies have been created and added for the April database release. The assemblies added are "Floor Framing" and "Windows".

Floor Framing

This is an assembly that is available for use in loss scenarios that involve damage to a structure's floor framing. Users can use this assembly to estimate for common floor framing construction components and account for general estimating best practices. It can be used in either a room diagram or an entire floorplan.

Windows

This is an assembly that is available for use in loss scenarios that involve damage to a structure's windows. Users can use this assembly to estimate for common window construction components and account for general estimating best practices. It can be used in a room diagram, a 2D elevation diagram, or a 3D elevation diagram.

Low Slope Roofing

Updated options for roof decking, these were not adding any items previously.
 This is now functional.

Desk Adjuster Updates

(Fixes and Updates - Desk Adjuster)

None

New items added for the April 2023 Database Update

Category	Item Description	Action	UOM
ACT - Panels	Ceiling Light Diffusing Panel, Prismatic, Acrylic, 2'x4'	Rem/Reset	SF
ACT - Panels	Ceiling Light Diffusing Panel, Prismatic, Acrylic, 2'x4'	Reset	SF
ACT - Panels	Ceiling Light Diffusing Panel, Prismatic, Acrylic, 2'x4'	Remove	SF
ACT - Panels	Ceiling Light Diffusing Panel, Prismatic, Acrylic, 2'x4'	Replace	SF
