

Release Notes

CoreLogic Database Update
November 2023

Summary of Changes

- 75 new Item Operations have been added for the November database update.

Database Updates

- Standard monthly material price update.
- New items include: Heavy Traffic Glue Down Carpeting, Wood/Metal Spiral Stairways, Caution Tape, Thermal Foggers, UV Light Machines, & more.
- The CoreLogic Pricing Analysis & Delivery Department continues to make progress on the complete refresh of all line item actions within the Claims Construction Cost Database.
 - This refresh includes a re-alignment of each line-item description and associated comments and components.
 - This update will standardize each category within the Claims Construction Cost Database to provide users with a more consistent naming convention for product lookup, as well as additional details within each line-item action comment.
 - The category re-alignments included with the November Pricing Database release are SDG – Siding and SFG – Soffit, Fascia & Gutter.
 - The next categories being updated will be FCO – Floor Covering and TIL - Tile, which are expected to be released with the December Pricing Database update.
 - The re-alignment process will continue on a rolling monthly basis through 2024, until all categories have been completed.

Claims Construction Bulletin

- To keep our clients informed of current market trends, CoreLogic® has curated a monthly bulletin of trending cost variations for various loss types by regions within the U.S.

Item Image Updates

- 80 new images were added for the November database update.
- 1941 total images are currently present in the database, covering 3383 specific line items.

Assembly Updates

(Fixes and Updates – Assemblies)

- Asphalt Roofing
 - Gutter/downspout options have been expanded to provide additional selections for material, size, and style. Downspouts have been updated to correspond to the new gutter options.
 - Seamless gutters were eliminated from the assembly as these were removed from the database in November to streamline option selection for the user and provide the most current and accurate data possible.
 - Repaired galvanized furnace vent cap options, the quantity was not populating correctly upon estimate generation.
 - Repaired visibility of furnace vent cap options, this was previously disappearing when selecting galvanized vent pipes.
 - Updated names of power roof vent cover sizes presented to the user. This will accurately reflect the sizes of the line items as defined in the database.
 - Repaired plastic power roof vent covers as these were not populating when selected.
 - Updated names of ridge cap materials to align with updated database naming conventions.
 - Some options presented to the user were updated in format (question type) to streamline user experience and provide a more consistent feel. The options will retain the same functionality they did previously.
- Low Slope Roofing
 - Gutter/downspout options have been expanded to provide additional selections for material, size, and style. Downspouts have been updated to correspond to the new gutter options.
 - Seamless gutters were eliminated from the assembly as these were removed from the database in November to streamline option selection for the user and provide the most current and accurate data possible.
 - Repaired options for cedar fascia, these were not previously populating during estimate generation.
 - Repaired flashing title/header that appears after estimate generation to organize the estimate. This was incorrectly appearing regardless of user selection.
 - Some options presented to the user were updated in format (question type) to streamline user experience and provide a more consistent feel. The options will retain the same functionality they did previously.
- Metal Roofing
 - Gutter/downspout options have been expanded to provide additional selections for material, size, and style. Downspouts have been updated to correspond to the new gutter options.
 - Seamless gutters were eliminated from the assembly as these were removed

from the database in November to streamline option selection for the user and provide the most current and accurate data possible.

- Updated names of power roof vent cover sizes presented to the user. This will accurately reflect the sizes of the line items as defined in the database.
 - Repaired plastic power roof vent covers as these were not populating when selected.
 - Repaired options for cedar fascia, these were not previously populating during estimate generation.
 - Repaired framing title/header that appears after estimate generation to organize the estimate. This was incorrectly appearing regardless of user selection.
 - Some options presented to the user were updated in format (question type) to streamline user experience and provide a more consistent feel. The options will retain the same functionality they did previously.
- Tile Roofing
 - Gutter/downspout options have been expanded to provide additional selections for material, size, and style. Downspouts have been updated to correspond to the new gutter options.
 - Seamless gutters were eliminated from the assembly as these were removed from the database in November to streamline option selection for the user and provide the most current and accurate data possible.
 - Updated names of power roof vent cover sizes presented to the user. This will accurately reflect the sizes of the line items as defined in the database.
 - Repaired plastic power roof vent covers as these were not populating when selected.
 - Repaired options for cedar fascia, these were not previously populating during estimate generation.
 - Some options presented to the user were updated in format (question type) to streamline user experience and provide a more consistent feel. The options will retain the same functionality they did previously.

Desk Adjuster Updates

(Fixes and Updates – Desk Adjuster)

- Asphalt Roofing
 - Seamless gutters were eliminated from the questionnaire as these were removed from the database in November to streamline option selection for the user and provide the most current and accurate data possible.
 - Gutter items generated through the questionnaire were updated from Box Style to K-Style as these are the most common type of gutters in the market today and therefore reflect the most likely match for what was present at the time of loss.

New items added for the November 2023 Database Update :

FCO - Carpet	Carpet, Glued Down, Heavy Traffic, Good	Rem/Reset	SF
FCO - Carpet	Carpet, Glued Down, Heavy Traffic, Good	Reset	SF
FCO - Carpet	Carpet, Glued Down, Heavy Traffic, Good	Remove	SF
FCO - Carpet	Carpet, Glued Down, Heavy Traffic, Good	Replace	SF
FCO - Carpet	Carpet, Glued Down, Heavy Traffic, Good	Tear Out	SF
FCO - Carpet	Carpet, Glued Down, Heavy Traffic, Very Good	Rem/Reset	SF
