April 3<sup>rd</sup>, 2024

# CoreLogic Enriched Data Integration

This job aid will guide a user of a company that has the CoreLogic Enriched Data integration enabled through the steps to access and utilize the integration within a claim.

**Note:** This document was created using a demo insurance company with generic settings. Keep in mind that your screens may appear slightly different. Please refer to your specific carrier guidelines for proper claim and estimate settings.

1. Within a claim, navigate to the **Loss Summary** screen.

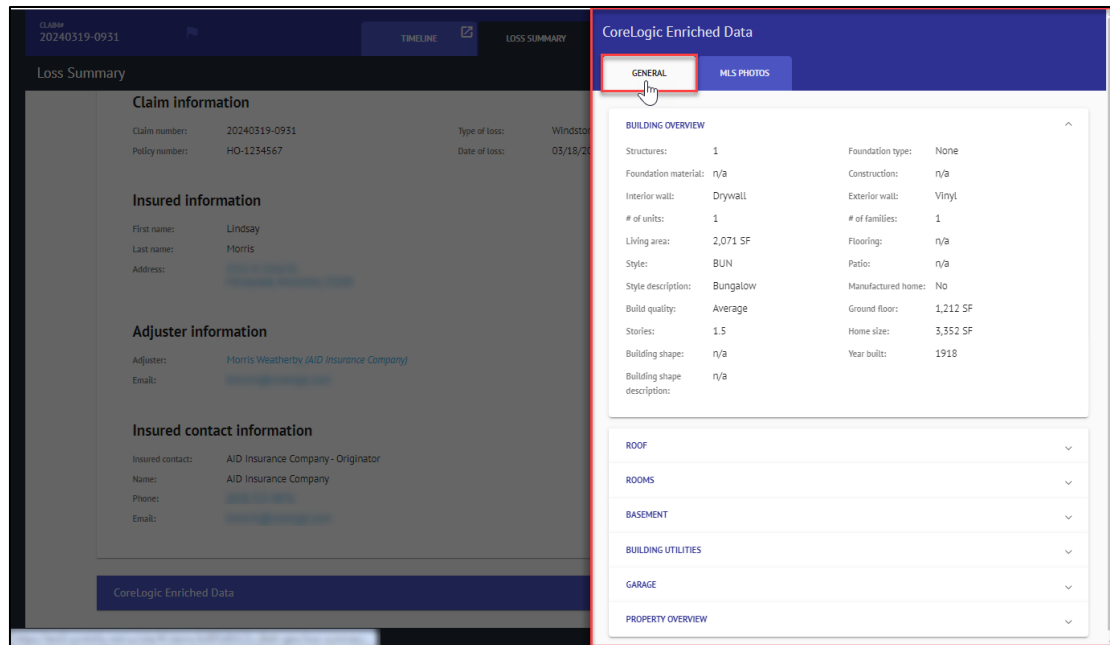

2. Scroll down to view the **CoreLogic Enriched Data** drawer. Click anywhere on the drawer to open.

**Note:** The integration is also accessible from the quick access menu in the Integrations section. See image below.

- The integration blade will slide out from the right side of the screen and open to the **General** tab.

**Note:** If the system cannot find a matching property with the loss address provided, an error message will be displayed when first attempting to access the integration. Click OK to close the error message and proceed to take any necessary action to correct the information provided, if possible.

4. From the integration blade, access various organized property datasets by clicking on the individual drawers to open further.

The screenshot displays the 'CoreLogic Enriched Data' interface. At the top, there are two tabs: 'GENERAL' and 'MLS PHOTOS'. The 'GENERAL' tab is active, showing a 'BUILDING OVERVIEW' section with various property details. Below this, a list of expandable sections is shown, with 'ROOMS' highlighted by a red box and a mouse cursor. The 'ROOMS' section is expanded, showing details about bedrooms, full baths, 1/4 baths, basement rooms, half baths, and 3/4 baths.

BUILDING OVERVIEW			
Structures:	1	Foundation type:	None
Foundation material:	n/a	Construction:	n/a
Interior wall:	Drywall	Exterior wall:	Vinyl
# of units:	1	# of families:	1
Living area:	2,071 SF	Flooring:	n/a
Style:	BUN	Patio:	n/a
Style description:	Bungalow	Manufactured home:	No
Build quality:	Average	Ground floor:	1,212 SF
Stories:	1.5	Home size:	3,352 SF
Building shape:	n/a	Year built:	1918
Building shape description:	n/a		

ROOMS			
Bedrooms:	4	Basement rooms:	0
Full baths:	2	Half baths:	n/a
1/4 baths:	n/a	3/4 baths:	n/a

5. If matching MLS Photos were located for the property, the **MLS Photos** tab will appear at the top of the screen. Click to open. Note that if no MLS photos exist for the property or no matched photos were located, this tab will not appear.

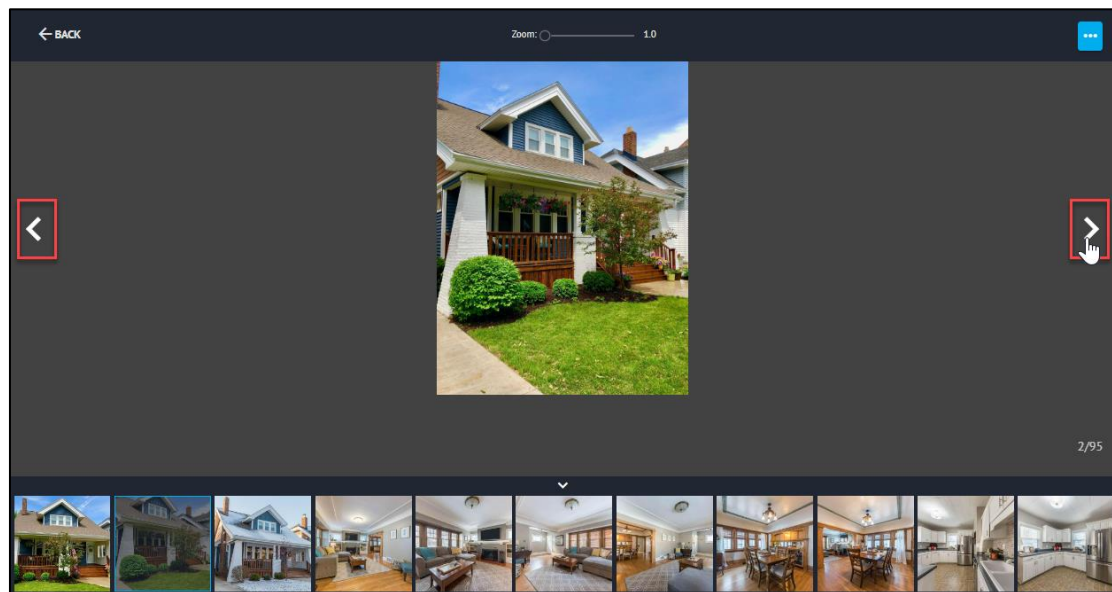

The screenshot shows the 'CoreLogic Enriched Data' interface with the 'MLS PHOTOS' tab highlighted by a red box and a mouse cursor. The 'GENERAL' tab is still visible, showing the 'BUILDING OVERVIEW' section with property details.

BUILDING OVERVIEW			
Structures:	1	Foundation type:	None
Foundation material:	n/a	Construction:	n/a

6. The blade will display view-only thumbnail versions of the available photos. Click anywhere on a specific photo to open the MLS Photos view screen and view a larger image.

7. While on the MLS Photos view screen, navigate between photos by clicking on the right and left arrows, or utilizing the keyboard arrow shortcuts.

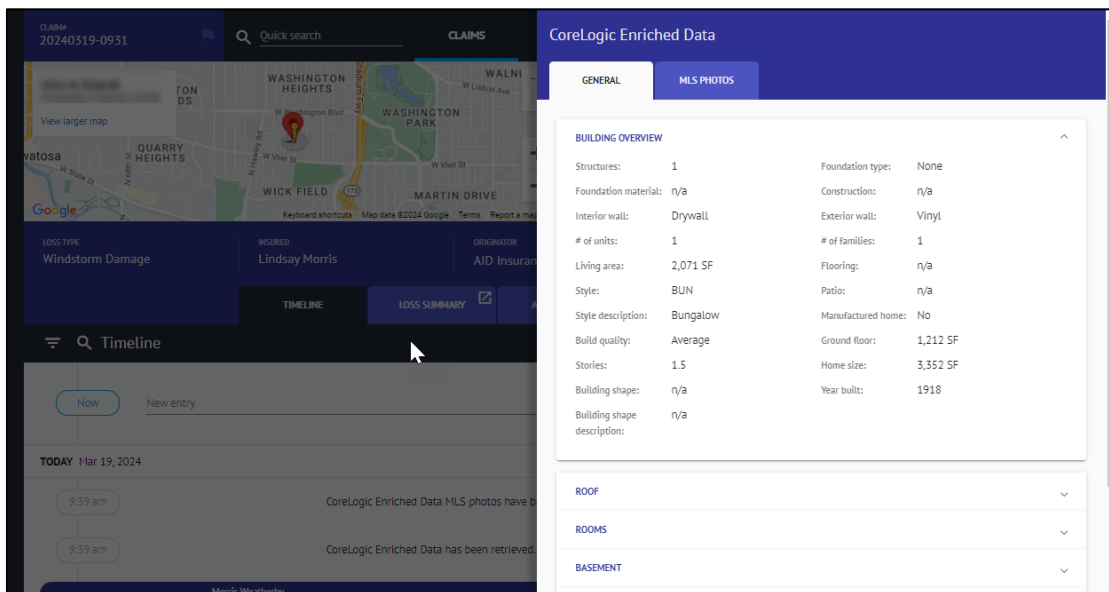

8. Click the **ellipsis menu** to be presented with the limited menu of functions due to the view-only nature of this page.

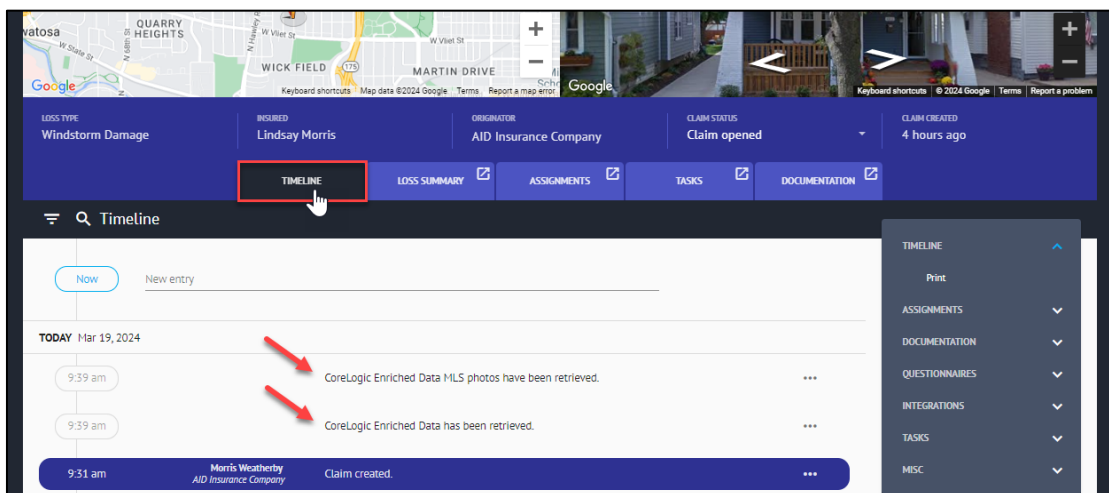

9. Click **Back** to return to the **CoreLogic Enriched Data** integration blade.

10. Close the integration blade by clicking anywhere on the page outside of the blade itself.

11. Navigate to the **Timeline** to view the automatic timeline entries generated with the integration.

## About CoreLogic
